

Super-Vac High Vacuum Extractor Arms and Cranes D.63/75mm 1.5•2•3•4•5•6•7•8 m

Super-Vac makes the difference

Super-Vac high vacuum arms and cranes make the difference between a bad and a good high vacuum installation. Quick and easy handling of the extraction hood is essential with high vacuum installations. The hood has to be repositioned with short intervals to be close enough to catch for example welding fumes.

Perfectly balanced

The external hydraulically suspended parallelogram arms is the secret. The hood is incredibly easy to move and 100 % stable in all positions. Super-Vac Extractor Cranes have two ball-bearing mounted horizontal arms with disc-brakes. Both the horizontal and vertical manoeuvrability is excellent. The extractor will really be used.

A high quality Product. Super-Vac has a long and strong steel hood to withstand sparks, chemicals and heat. There is as standard a high vacuum damper in the hood. The design is strong and rigid and works well even in the toughest environments.

30 Years Experience!

30 years experience of design and manufacturing at your service. The Plymoth products are a combination of well-proven technique and progressive new ideas.

Plymoth is always a step ahead – but not expensive!

	Art.Nr.	Art.Nr.
	d.63 mm	d.75 mm
Super-Vac High Vacuum Extr. Arm 1.5m (0.25m+1.5m). High vac. damp. incl.	P-060	P-064
Super-Vac High Vacuum Extr. Arm 2m (0.25m+2m) High vac. damper incl.	P-061	P-065
Super-Vac High Vacuum Extr. Arm 3m (0.25m+3m) High vac. damper incl.	P-062	P-066
Super-Vac High Vacuum Extr. Arm 4m (0.5m+0.6m+3m) High vac. damp. incl.	P-063	P-067
Super-Vac High Vacuum Extr. Crane 4m (2m+2m). High vac. damper incl.	P-090	P-095
Super-Vac High Vacuum Extr. Crane 5m (2m+3m). High vac. damper incl.	P-091	P-096
Super-Vac High Vacuum Extr. Crane 6m (3m+3m). High vac. damper incl.	P-092	P-097
Super-Vac High Vacuum Extr. Crane 7m (4m+3m). High vac. damper incl.	P-093	P-098
Super-Vac High Vacuum Extr. Crane 8m (5m+3m). High vac. damper incl.	P-094	P-099
